Go wireless with Illiana today!

- You are always connected.
- Connections are fast, 30-50 times the speed of dialup.
- We do not cap uploads at 64k or 128k like cable, DSL and satellite do, nor do we block ports.
- Unlike satellite, there are no extra charges for bandwidth if you exceed a certain amount per month.
- Installs are fast, normally taking 1-2 days.
- Your connection is secure. Our radios use *frequency hopping spread spectrum* technology that the military uses.
